Business Energy Rebates

Reduce operating costs for your small or mid-sized business by upgrading to energy-efficient products and equipment. They use less energy, save you money, enhance the customer experience, and boost employee productivity.

Program at a Glance

- **Pre-approval is required before ordering any equipment to qualify for rebates**
- Businesses that use less than 500,000 kWh (or have less than approximately \$50,000 in annual electric costs) across all locations are eligible
- Quick and easy way for businesses to receive incentives for common energy efficiency projects
- Use more than 500,000 kWh annually? View our [Custom program](#) instead
- Call 877-889-3777 if you have any questions
